

My family financially supports K-Love! K-Love serves my family with positive & uplifting music. We appreciate announcements of local Christian activities in our area and news that effects the Christian community. They offer this advertising as a free service to the community. Christian organizations and churches would experience greater financial burden if K-Love were no longer available in our area. K-Love offers prayer and encouragement throughout it's broadcast, they have prayed for my friends. They touch so many lives around the world uplifting people who need a positive message at just the right time. Wouldn't we all benefit from hearing healing and encouraging words during our day as opposed to the message on secular radio: violence, drugs, codependence and sex without consequences? I appreciate the ability to play K-Love for my children- the scriptures, messages and songs spark discussions and help us grow in respect, kindness, and compassion. Isn't that what we need more of these days? I believe it is in the public's best interest to keep K-Love broadcasting on as many stations around the globe! Thank you for considering my comments. God Bless! Sincerely, Karen Grunwald
